

ENLIGHTEN EXERCISE #55

My Ethical Core

How would you describe your “ethical core” that drives the way in which you work and live? What choices do you make each day when nobody is around that provide a sense of your level of honesty, integrity and ethics?

Ethics Questions

1. You come to a stop light late at night. It is taking a long time to change. No one is coming in any of the four directions? What do you do?
2. You are at an ATM at 10:00 PM. No one is around. You request \$20. You receive \$200; but your receipt shows only the requested \$20.00. What do you do?
3. There is a tragic epidemic 200 miles away in a remote location. You have been asked to take the only known antidote to the location. It must be delivered in 4 hours or hundreds of people will die. You are two hours away from your destination when you receive a cell phone call. Your 10-year-old child has been in a terrible accident. You are the child’s only known source of blood supply. The doctors at the scene give the child less than 3 hours to live without your blood donation. Do you continue on or turn around? (There are no other options).
